Yes, only 900 miles (nine hundred miles) from new. A very rare opportunity to acquire a car with such incredibly low mileage. I can advise you the car is in impeccable condition throughout and I would say, it's probably the only one on the market in this condition, the car is totally original and the closest to brand new as possible. This car has had just one lady owner from new and she managed to cover just 700 miles up to 2012, since 2012, the car has only been driven once a year to her local M.O.T station and back. Please note, this car has been garage kept from new in dry storage and has not been left out on the drive or road, this is very obvious when you see the car in the flesh. This vehicle comes with a new M.O.T and a comprehensive parts and labour warranty, which can be used nationwide. Full dealer facilities available, low cost and nil deposit finance available cheaper than online and high street prices (subject to status) Please feel free to contact us for further informati...
